THE LEGISLATURE.

THE HOUSE IN SESSION ONLY

TWENTY-FIVE MINUTES.

The Senate Spends the Morning on

the Honolulu Electric Railway

Bill and Other Matters.

THIRTY-FIRST DAY, JULY 22ND.

THE SENATE.

President Wilder called the

Senate to order at 10 a.m., every

member being present. After

prayer by the Chaplain and the

reading of the minutes. Minister

King announced that the President

had signed the Game Act, the

Hilo Electric Light Franchise

Act and the Act relating to terms

of the District Court.

Senator Waterhouse reported

from the Finance Committee in

favor of taking \$100 from the

\$5000 appropriation for the Labor

Commission for the payment of

its members. The report was

signed by Senators Waterhouse

and Wilcox. Senator Schmidt

presented a minority report mak-

ing the amount \$1500.

Attorney-General Smith moved

the minority report be adopted.

Lost.

Senator Brown thought the

matter should be brought up in

the shape of a joint resolution.

Senator Waterhouse moved that

the majority report be adopted.

Carried.

A petition from W. C. Peacock

& Co. and other wholesale and

retail liquor dealers in relation to

the Alcohol bill was read and

tabled to be taken up with the

bill. The petition sets out that

the new bill will result in a large

loss of revenue to the government

and to the signers of the petition.

Minister Hatch introduced a

joint resolution that two members

of each House of the Legislature

be appointed a special committee

to devise a great seal and depart-

ment seals for the use of the gov-

ernment. Adopted.

The Attorney-General tried to

get the action of the Senate on the

bill to admit low grade kerosene

reconsidered and finally succeeded,

the Minister of Finance suggest-

ing that the difficulties in the

present bill might be overcome

by allowing the Minister of the

Interior to issue special permits

or licenses. The bill was made

the special order for tomorrow.

The Alcohol bill with the re-

port of the committee and petitions

thereon was next taken up. The

bill was referred back to the com-

mittee for further consideration.

The Act to Incorporate the Ho-

lolulu Electric Railway Company

was read the first time.

Senator Baldwin moved that

the matter be referred to the next

Legislature in order that the

Government and Senate may have

an opportunity to obtain proper

information from the United

States in regard to electrical

systems and franchises generally.

Senator Waterhouse said that

in justice to those who had peti-

tioned in favor of the bill, it should be referred to a committee and moved that it be referred to the Committee on Commerce and Internal Improvements.

President Wilder said the committee might be instructed to report to the next Senate.

Senator Brown seconded the motion to lay over to the next session. As far as he could see by a hasty examination of the bill it simply took the control of the streets of Honolulu from the Government and placed them in the hands of a foreign corporation.

That any committee to whom the bill was referred would not have time to make a proper investigation and report at the present session. The arbitration clause in the bill was unsatisfactory and would not work; he was also opposed to bringing up this class of legislation before a special session. The Senator said he was not opposed to the road by any means, but wanted the franchise guarded in such a manner that the people of Honolulu did not get in another such a scrape as they were now in with the present street railway system.

The Attorney-General was in favor of referring to the next legislature, in the hope that one good and satisfactory system might be evolved instead of two poor ones. He agreed with Senator Brown that the arbitration matter was unsatisfactory and would have to be put in better shape. There were other defects in the bill which ought to be carefully considered and the Executive were in favor of postponing action until the next session. The government was decidedly in favor of the bill but did not want to make any mistakes which might work hardships in the future.

Senator Waterhouse was opposed to leaving the bill with the Executive. This had been done by the Advisory Council and nothing had come of it. He favored the reference to a committee which would do something.

Senator Baldwin wished it understood that he was in favor of an electric road, but he declined to act unless he could do so intelligently. He wanted more information on the matter and was not particular where it came from.

Senator Brown claimed the discussion was out of order. A bill on its first reading must either pass or be thrown out.

The Attorney-General moved the bill pass the first reading. Carried.

Minister Smith then moved the bill be read a second time by title. Carried.

Senator Waterhouse then renewed his motion to refer to the Committee on Public Lands and Internal Improvements. Carried. The committee is composed of Senators Lyman, Baldwin and McCandless.

A communication from the House was read stating that Act 14, relating to canaigre and its products, had passed this morning.

The Senate then adjourned.

THE REPRESENTATIVES.

House met at 10 a.m.

Mr. Hanuna presented a petition of 66 residents of Hana for an appropriation of \$5000 for roads in that district. Referred to Finance Committee.

The bill to encourage new agricultural enterprises passed third reading. It exempts from taxes and import duties for ten years all canaigre and fibre crops, and all preparations and extracts therefrom produced in this country; also, all mills, machinery, implements, buildings, etc., used exclusively in the care, cultivation or preparation of canaigre and fibre plants.

At 10:25 the House adjourned till 10 a. m. tomorrow.
